

Institutional Distinctiveness

7.3.1. Portray the performance of the institution in one area distinctive to its priority and thrust within 1000 words

Hand-Holding Support for EWS Category

FIMT is dedicated to fostering an inclusive environment where students from all financial backgrounds can thrive. One of the key pillars of this commitment is the comprehensive support system for students from the Economically Weaker Sections (EWS) of society. Understanding the financial challenges that EWS students often face, FIMT offers a range of financial assistance options, including scholarships and fee waivers, to reduce these burdens. Beyond financial aid, the institution provides personalized academic guidance and mentoring, ensuring that EWS students receive the support they need to succeed academically and personally.

This hand-holding approach is not just about providing financial relief; also it is about creating a nurturing environment where every student has the opportunity to excel. FIMT's faculty and administration work closely with EWS students, offering additional academic resources, counseling services, and career guidance to help them overcome any barriers they might face. This focus on inclusivity ensures that all students, regardless of their economic background, have access to quality education and the tools needed to build successful careers.

Promoting Entrepreneurship and Collaboration with IIC

FIMT's commitment to entrepreneurship is another distinctive feature of the institution. The college has established 11 active clubs, each focused on fostering a spirit of innovation and connecting students with the broader community and industry professionals. These clubs serve as incubators for entrepreneurial ideas, providing students with practical experience in areas such as business development, marketing, technology, and social innovation.

Through these clubs, students have the opportunity to collaborate with professionals from various industries, gaining insights and mentorship that are invaluable for their entrepreneurial ventures. This practical exposure helps students understand the dynamics of the real world, preparing them for the challenges of starting and running their own businesses.

Moreover, FIMT's collaboration with the Institute Innovation Centre (IIC) enhances these efforts by providing a structured platform for innovation and entrepreneurship. The IIC facilitates the development of entrepreneurial skills through workshops, seminars, and competitions, allowing students to refine their ideas and bring them to market. This partnership underscores FIMT's commitment to nurturing future leaders and innovators, equipping students with the skills, knowledge, and networks needed to succeed in today's competitive environment.

In conclusion, FIMT's distinctiveness lies in its dual focus on supporting economically disadvantaged students and fostering an entrepreneurial spirit among its students. These efforts not only enhance the educational experience at FIMT but also prepare students to make meaningful contributions to society. FIMT also has a dedicated EDP cell. The cell has generated many successful entrepreneurs in various fields who are associated with the Institute. Entrepreneurship is the process of creating or seizing an opportunity, and pursuing it regardless of the resources currently controlled. It is the process of creating something new with value by devoting the necessary time and effort, assuming the accompanying financial, psychic, social risks, and receiving the resulting rewards of monetary, personal satisfaction, and independence.

A Few prominent landmarks in the Academic Year

2023-24

FIMT: Unnat Bharat Abhiyan is not restricted to urban but creating conscious to rural areas and people also.
