BCA- VI SEMESTER

Artificial Intelligence

PAPER CODE-312

Objective:

The objective of this paper is to identify the component associated with information technology. This course provides students with a working knowledge of the terminology, processes, and components associated with information technology. This paper is associated with evaluations of operating system.

Questions for Assignment:

- Q1. Give the classification of learning process.
- Q2. How to use the parameters for machine translation?
- Q3. Explain Expert System in brief.
- Q4. Define Knowledge base in detail.
- Q5. What do you mean by Turing Test?

Procedure:

For completing the assignment students should refer to the books mentioned in references and they can also take help from internet. The assignment should be handwritten and properly filled. The students should cover all these headings in their assignment.

- Index
- Introduction
- Objective of the assignment
- Assignment Questions with Answers
- Conclusion
- References

Outcome: After doing the assignment, students will understand the various basic concepts of Information Technology and will be able to perform better in the subject.
