Major Observations and Suggestions-

- A request by students is the formulation of curriculum delivery that bridges the gap between theory and praxis offering opportunities for field experiences, hands-on learning, skill development, and more professionally oriented programs that shall enable them to participate.
- Specifically keeping the pandemic in mind, students express dissatisfaction with the online mode of instruction, desiring for syllabus consequently screen time to be reduced, and classes to be made in physical mode.
- Material referenced should be linked so that students can easily access the secondary material as well. The PPTs used while teaching has helped them in understanding the topic and the notes that they provide are very accurate and easily understandable.
- A lot of students voiced the demand for more departmental trips and educational excursions so that learning may move beyond the confines of the classroom
- The need for more interdepartmental collaborations was also voiced.
- Better placements, greater internship opportunities, and more emphasis on research were recurring requests from students Recreational activities should be encouraged; tours and trips would be beneficiary for overall development.
- Communication to be improved among faculties and students.
- Another insight that can be recuperated from the responses is the demand for a broader teaching pedagogy in sync with global standards that are customized to the individual needs of students with greater emphasis on discussion-based, well-paced teaching, improvising evaluation methods, formulating assignments and projects that test creative and analytical ability is the need of the hour.

Action Taken Points:

- Workshops, guest lectures, and seminars/webinars organized on communication skills and personality development were conducted.
- Field visits and educational visits were organized after the physical mode of classes.
- Continuous Teacher Evaluation was expounded to evaluate students' performance in all domains. There was a substantial increase in the placement drives.
- Add-on programs such as awareness of HIV AIDS were conducted. To develop research aptitude among students focus is given to dissertations and projects.

Conclusion-As an institute we are working incessantly towards incorporating of range of effective strategies for providing students with better assimilation of knowledge. A feedback system is employed to secure the holistic participation of students in the institutional processes. This fosters a spirit of transparency, communication, and inclusivity in all levels of functioning at the institution.

Alumni Feedback Analysis

Academic Year: 2021-2022

An Institution's alumni are the reflection of its past, representation of its present and a link to its future. Fairfield Institute of Management and Technology Alumni Association '*Sumanglam*' started in the year 2012 to provide support system, offering expertise assistance in employability. To reconnect, expand, and advance students who have graduated from this college to be in touch with each other and their alma mater. Alumni relations are a preemptive asset for higher education institution willing and striving to stand out from the National and International competition. To harness the power of Alumni feedback from students allows the institute to evaluate how its service provision is viewed. Alumni are the most dependable and best ambassadors to represent an institute. The feedback analysis process has put an increasing emphasis on the need for improvement of students in the quality assurance of higher education. Alumni involvement requires that students act as collaborators in, rather than merely passive receivers of teaching and learning.

Objectives of Alumni's feedback -

- To establish attraction, connection, affection, and influence an alumnus has with their alma mater over time.
- Aid Alumni by Showing the Value of Being an Active Member
- Serving the members of our alumni community to advance and develop their career.
