ACKNOWLEDGEMENT

I would like to thank and express my deep gratitude to respected Mentor(s)_____ (name of **Advocate**)_____ **or(website name)** **where I undertook & completed my 4 weeks internship for Content Writing or Research work** who has been my constant support, source of encouragement , inspiration ,guided and helped me in successfully completing my Summer Internship.

Moreover, apart from Court they give me a chance to get practical exposure by attending various conferences, seminars with various advocates. (If applicable).

I would also like to offer my due sense of gratitude to all my teachers and every person for their support and for assisting me in providing the best of all possible facilities during COVID-19 for completing my internship as well as at the time of drafting of this report.

OBJECTIVE

The Legal Internship Program is not designated to teach us how to be good lawyers (or how to be lawyers at all) it takes more than study at the University to do that. The objectives are to:
Expose us to the law in operation in context where we will come to perceive aspects of law which cannot be learned from reading or hearing about it.

Allow us to perceive ways in which the formal learning we acquire at University may be applied in practice and therefore to develop an appreciation of the practical dimension of the legal principle.

Enable us to relate the different areas of legal practice to importance of developing skills of legal research, communication, drafting, practice management and problem solving; and

Enable us to observe and reflect upon the values, ethical standards and conduct of legal profession in practice and to develop our own attitude of professional responsibility.

CONCLUSION

Conclusion must be in student words. Keep it short and simple approx. half page.

Pursuing this summer training I got an opportunity to get some exposure in the field of law. Research work was the basis of my internship and included dimensions of criminal medico legal experts to civil corporate litigation. All of which was an over the top experience.

Such summer trainings help a law student to reborn and replenish himself and to explore his bounds of training. Expertise in law comes through thorough reading which was the pre-requisite to our training.

When it comes to observance of trials in the courts, it was one of the most essential parts of learning for an intern. Observance of trials and court proceedings help in understanding the very root of the law in India. Proceedings are the whole mechanism in toto whose analysis is always advisable.

With a vote of thanks and gratefulness for reading this report thoroughly and for giving me this wonderful opportunity to grow up my vision in this field of law, I conclude this report with a great lot in my mind.

With Warm Regards
Yours Faithfully,
