# FAIRFIELD

Institute of Management & Technology

( Affiliated to GGSIP University, New Delhi )

As an institution of higher education involved in the development of current and future managers, **Fairfield Institute of Management and Technology (New Delhi-India)** is committed to implementing the Principles for Responsible Management Education starting with those that are more relevant to our capacities and mission, report on progress to all our stakeholders, and exchange effective practices related to these Principles with other academic institutions.

We also pledge to participate in and engage with the **UNPRME** on:

- 1) To develop the capabilities of students to be future generators of sustainable value for business and society
- 2) To incorporate into our academic activities, curricula, and organizational practices the values of global social responsibility
- 3) To create educational frameworks, materials, processes and environments that enable effective learning experiences for responsible leadership.
- 4) To engage in conceptual and empirical research that advances our understanding about the role, dynamics, and impact of corporations in the creation of sustainable social, environmental and economic value.
- 5) To interact with managers of business corporations to extend our knowledge of their challenges in meeting social and environmental responsibilities
- 6) To facilitate and support dialog and debate among educators, students, business, government, consumers, media, civil society organizations and other interested groups

We understand that our own organizational practices should serve as example of the values and attitudes we convey to our students. We encourage other academic institutions and associations to adopt and support these Principles.

Thanking you in anticipation

Warm Regards

Ms. Nalini

Secretary-FIMT
