Inspired by Swachh Bharath, a flagship initiative of Government of India, the college took several initiatives to properly dispose waste and maintain eco-friendly environment in and around the campus. Appropriate labeling is used on all kinds of bins to help users discard various type of waste avoiding manual segregation

## **Solid waste management:**

Institute practices the segregation of Solid Waste and its effective management in the campus. The collected waste is segregated at the source of the generation. The waste bins are placed separately for dry and wet waste at every corner of the corridor, wash rooms and common room. The dry waste bins are also placed in library, classrooms, etc. The dry and wet waste is handed over to municipal waste collection agency for further treatment.

## **Liquid Waste Management:**

The liquid waste generated from the campus goes directly to the drainage system created in the vicinity of the institute. As well as we use enzyme based bacterial treatment tablets in washrooms to keep washrooms neat and clean.

## **E-waste:**

The Institute has MOU for Collecting and Disposing-waste generated in campus. MOU has been made with supplier of Computers and electronics materials, in MOU it has been mutually agreed to give collected e-waste with non-profit.
